

Research seminar – EA 7505
Université de Tours – FRANCE

Friday 03 MAY 2019, 09: 00 -18: 00, Room EXT 08, Site Tanneurs

The social sciences and the challenge of fieldwork International perspectives

The Education Ethics Health (EA7505, EES) Research Team organized a conference in November 2018 entitled: "Social Sciences and the Challenge of Field Work". This conference aimed in the first instance, in dialogue between social sciences and medical sciences, to interrogate the nature of the data collected through the qualitative inquiry approaches and the methodologies associated. This one-day research seminar is an opportunity to continue this work, through the presentation of research works of doctoral students and researchers working in social and medical science fields.

This seminar will be divided into two main sessions: the first will focus on the logic of the inquiry and the correlation with the fieldwork generated (field inquiry, field report, data collection). The afternoon will then be an opportunity to discuss the data issue (characterization, confidentiality, data ownership, categorization processes...)

MORNING: LOGIC AND METHODOLOGIES OF THE FIELDWORK INQUIRY

09H15 - Opening and presentation - Hervé Breton (University of Tours, EA7505)

09H30/10H00 - Samuel Renier (University of Tours, EA7505)

Philosophy of education and fieldwork : case study of Dewey's The school and society

10H30/11H00 – Melpomeni Papadopoulou (University of Tours, EA7505)

Quantitative analysis of a textual corpus in Human Sciences: The case of the Alceste french software

11H30/12H00 - Selladurai Manjubarkavi (University of Madras, India)

Qualitative Research Methods with suitable application in social sciences

AFTERNOON : THE SINGULARITY OF DATA IN SOCIAL AND MEDICAL SCIENCES

14H00-14H30 – Caroline Cance & Anne-Lyse Minard (University of Orléans, UMR 7270)

Sensitive data in health research: ethical and methodological dimensions

15H00/15H30 – Victor Milimo (University of Tours, EA7505)

Qualitative study of the perception of social workers and health professionals on social inequalities in access to curative and preventive care for students in France.

16H00/16H30 - Emmanuel Rusch (University of Tours, EA7505)

Evidence base data and the challenge of fieldwork

SYNTHESIS AND DISCUSSION: HERVÉ BRETON (MODERATOR)
